The central theme of all Coerver Coaching concentrates on the improvement of both individual skills and small team group play, especially in the 6 - 14 age groups. Coerver Coaching believes that the game is made up of a series of movements and plays involving a small number of players (1v1, 2v2, 3v3 etc.) in different parts of the field. It is when they are linked together, or broken up defensively, that these small group plays make up a game of football.

Coerver Coaching concludes that ultimately any system of team play is only as good as the players involved. It therefore focuses on individual development both alone and in the context of small group team play. This curriculum is delivered through the Pyramid of Player Development.
